

December 2015

Dhaka Ahsania Mission UK (DAM UK) was set up in 1995 with the aim of working in partnership with Dhaka Ahsania Mission Bangladesh (DAM).

DAM's award-winning work is with some of the most vulnerable in urban and rural communities across Bangladesh and we support a number of projects that focus on education, skills training, water and sanitation, the prevention of trafficking and street and working children.

Mentoring from Caplor Horizons continues to add a great depth of valuable insights for DAM UK.

DAM UK have been working with Caplor Horizons for a year and will continue into 2016 as the potential to learn remains great.

Given our limited capacity, the advice and expertise has been vital in helping to shape DAM UK's development by assisting us to take a step back and reflect on our direction and effectiveness. This has been complemented by attending Caplor House events. These have provided opportunities to learn and meet interesting people

DAM UK have had mentoring from both Ian Williams and Lorna Pearcey which has provided us with clear direction, practical advice and tools to help maximise our efficiency.

This has been complemented by attending Caplor House events. These have provided very good opportunities to learn and meet interesting people

I cannot praise Caplor Horizons enough.

Emma Crump,
DAM Representative in UK
